# Traditional windows without compromise

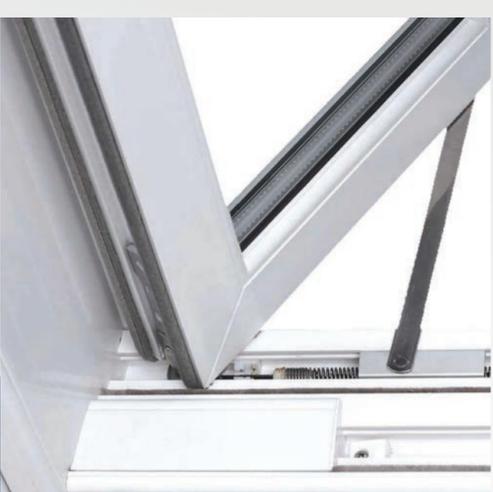

The Crystal Vertical Slider is a NEW Vertical Slider System, the result of considerable investment and technical expertise - the Crystal Vertical Slider has all the traditional benefits, improved by modern technology!.

Tool technology and traditional appearance bring together the latest commitment by Crystal Window Systems to tackle each market sector.

This new Vertical Sliding Window system reflects the sight lines of wooden windows but incorporates the latest designs and hardware applications available today.

The Crystal VS is packed with advanced features and benefits including . .

- Ovolo designed outer frame, cill, sash, bead and stop giving an authentic sash window appearance.
- Pile seal detail on sash edges and outer frame providing excellent weathering performance.
- Allows equal sight-lines of glass
- Gives traditional looks & aesthetics
- External gaskets welded at point of manufacture ensuring 'no shrinking'
- Less visible gasket
- No special hardware required
- Stronger fixing of heavy sashes
- Small and medium sash options
- Large bottom rail
- Post co-extruded sashes & beads
- Flush gasket detail
- Standard hardware
- Pivot bars fixed to reinforcing
- Sash horns
